

**I have
HIV.**

**Would
you
hug
me?**

**With love and care?
And not treat me with repulsion,
disgust, hatred, rejection
or even abuse?**

By knowing the facts and dispelling the myths about HIV/AIDS, we can help end discrimination, prejudice and mistreatment of people living with HIV/AIDS.

Remember: The only way that HIV/AIDS can get to us is through *high-risk life-style habits*. Not through casual contact with those who most need our care and sympathy. Avoid unprotected sex. Avoid sharing needles. Know what it takes to stop HIV/AIDS.
