# *How long does a man live?*

How do we measure  
The length of a man's life  
By number of years?  
Or what he touched others by?

If truth be told  
The measure of life  
Is gauged by how  
We carry him inside.

Those who carry  
His essence and pride  
Receive his gift  
Of hope and life.

If we have to measure  
The length of one's life  
He truly lives  
When through him, another survives.

For it is in his giving  
That others receive  
A gift so precious  
Of hope and new life.
