

Ministry of Health Malaysia

'We fear outbreak of diseases'

The worst is over and now the stretched public health service is preparing to cope with

NIPPP

- The NIPPP is a document which serves as a time bound guide for preparedness and response plan for influenza pandemic
- It contains specific advice and actions to be undertaken by the Ministry of Health at the different levels, other governmental departments and agencies and non governmental organizations
- Ensure that resources are mobilized and used most efficiently
- Facilitate an organised, coordinated and effective national preparedness and response in the event of an influenza pandemic
- Provide a framework for preparedness based on national priorities and response by the health sector
- Ensure rapid, timely, coordinated intersectorial and interagency actions in reducing the morbidity, mortality, social and economic disruption of a pandemic event
